

# BUILDING BLOCKS | Ideas | Services | Tools | Technology

Showing that your business is committed to breast cancer awareness can be as easy as shopping from this page. During October, these companies will donate proceeds from the sale of exclusive items to cancer research initiatives. Whether you use or sell these products in your spa, some of the money you spend will assist organizations like Susan G. Komen for the Cure and the National Breast Cancer Foundation, who are pioneering the efforts to abolish this widespread disease.

"Hope" is fittingly emblazoned across the chest of these **pink T-shirts** from **KarmaThreads**. Made of burnt-out fabric, the Ts look worn-in and feel super-soft. Available in women's small, medium, large and extra-large, the shirts can be worn by spa employees throughout the month. Ten percent of proceeds will be donated. To order through the company's wholesale website, email [rhonda@karmathreads.com](mailto:rhonda@karmathreads.com) or call 603/642-6587.

If you want to try the **Clarisonic skin care brush** in your spa, add it to your retail area or purchase replacements, now is the time. For every special-edition Pink Clarisonic sold, \$10 will be donated. Professional rates are available. To place an order or find out about retailing the Pink Clarisonic, contact 888/525-2747 or visit [clarisonic.com](http://clarisonic.com).

**Sircuit Cosmeceuticals** will donate half of the total sales from **Suggah lip-plumping treatment**. For retailing purposes, spa owners can purchase Suggah at wholesale prices. Call 323/661-4544 or visit [sircuitskin.com](http://sircuitskin.com) for details.

**Tweezerman** has launched **Precision in Pink tweezers** to promote limited editions of its Slant and PetiteTweezer varieties. Both come in matching metal or leather cases imprinted with the pink breast cancer awareness ribbon. Tweezerman will donate \$1 for each Precision in Pink item sold. Learn more at [tweezermanprofessional.com](http://tweezermanprofessional.com).

SUPPORT THE POWER OF PINK...  
**PINK OF HEARTS**

This year, **OPI** is donating \$25,000 to Susan G. Komen for the Cure and introducing **Pink of Hearts nail lacquer**. This shy-pink polish was created to support Komen in its promise to end breast cancer. "Pink of Hearts is our way of honoring those who've fought breast cancer and celebrating those who continue to fight," says Suzi Weiss-Fischmann, OPI executive vice president. For a Pink of Hearts counter display, call 800/341-9999 or visit [opi.com](http://opi.com).

Replace existing candles with ones that raise consciousness about breast cancer awareness. Soy-based, fuchsia-colored **Violet Rose candles** from **Illume** come in several styles and sizes. Fifty percent of proceeds from Violet Rose candles purchased through the company's website will be donated. When visitors to your spa ask, "What's that lovely scent?" direct them to [illumecandles.com](http://illumecandles.com), so they too might contribute.
